

# FIDDLE TUNES (FT29)

## Sandy River Belle

traditional fiddle tune

adapted by Larry R. Conger

♩ = 140

*flat-pick*

Intro.....

*strum all strings*

*flat-pick*

*Sandy River Belle* uses 2 techniques to make the tune more interesting. The A section uses a flat-picking style with hammer-ons and pull-offs while the B section strums, using a slide to reach fret 9. Work the tune slowly at first to establish the hammer-ons and pull-offs. The A section may take more practice than the B section. Note that the strums in the B section are indicated only when they change to another chord form in order to make the tab easier to read.
